

COUNCIL & CIVIL PRECAST CONCRETE CAPABILITY

South Australian Manufacturer | Edinburgh North | Direct Supply

LOCAL PRECAST SUPPLY FOR COUNCIL, COMMERCIAL AND CIVIL PROJECTS

Retain The Earth manufactures reinforced precast concrete products in South Australia, with a focus on consistent finish, high-strength concrete, durability and reliable project supply.

WHY RETAIN THE EARTH

- 60 MPa high-strength concrete
- Reinforced precast manufacturing
- South Australian production and direct supply
- Bulk orders and Adelaide metropolitan delivery
- Established manufacture of concrete sleepers, fence plinths and wheel stops

WHEEL STOP CAPABILITY

- 1650 mm overall base length
- 1640 mm top length
- 160 mm overall width
- 100 mm overall height
- 2 x N10 longitudinal reinforcing bars
- 2 recessed fixing locations at 1150 mm centres
- Suitable for council/commercial assessment and project-specific approval

SUITABLE PROJECTS

Council car parks & facilities	Civil maintenance works	Commercial developments
Schools & sporting facilities	Industrial sites & warehouses	Car park upgrades & replacements

SUPPLIER & PROJECT SUPPORT

Retain The Earth welcomes council, contractor and project-specific enquiries. We can provide product data, samples, project pricing, delivery coordination and ongoing supply arrangements. Final product acceptance and installation are to be confirmed against the relevant project specification and applicable Australian Standard requirements.
